Materials Needed:

- 2 sheets white cardstock
- 1 sheet black cardstock
- 6" square black craft foam
- craft adhesive for paper
- double sided adhesive tape
- scissors/craft knife
- cd disc (use for template)
- black marker

Procedure:

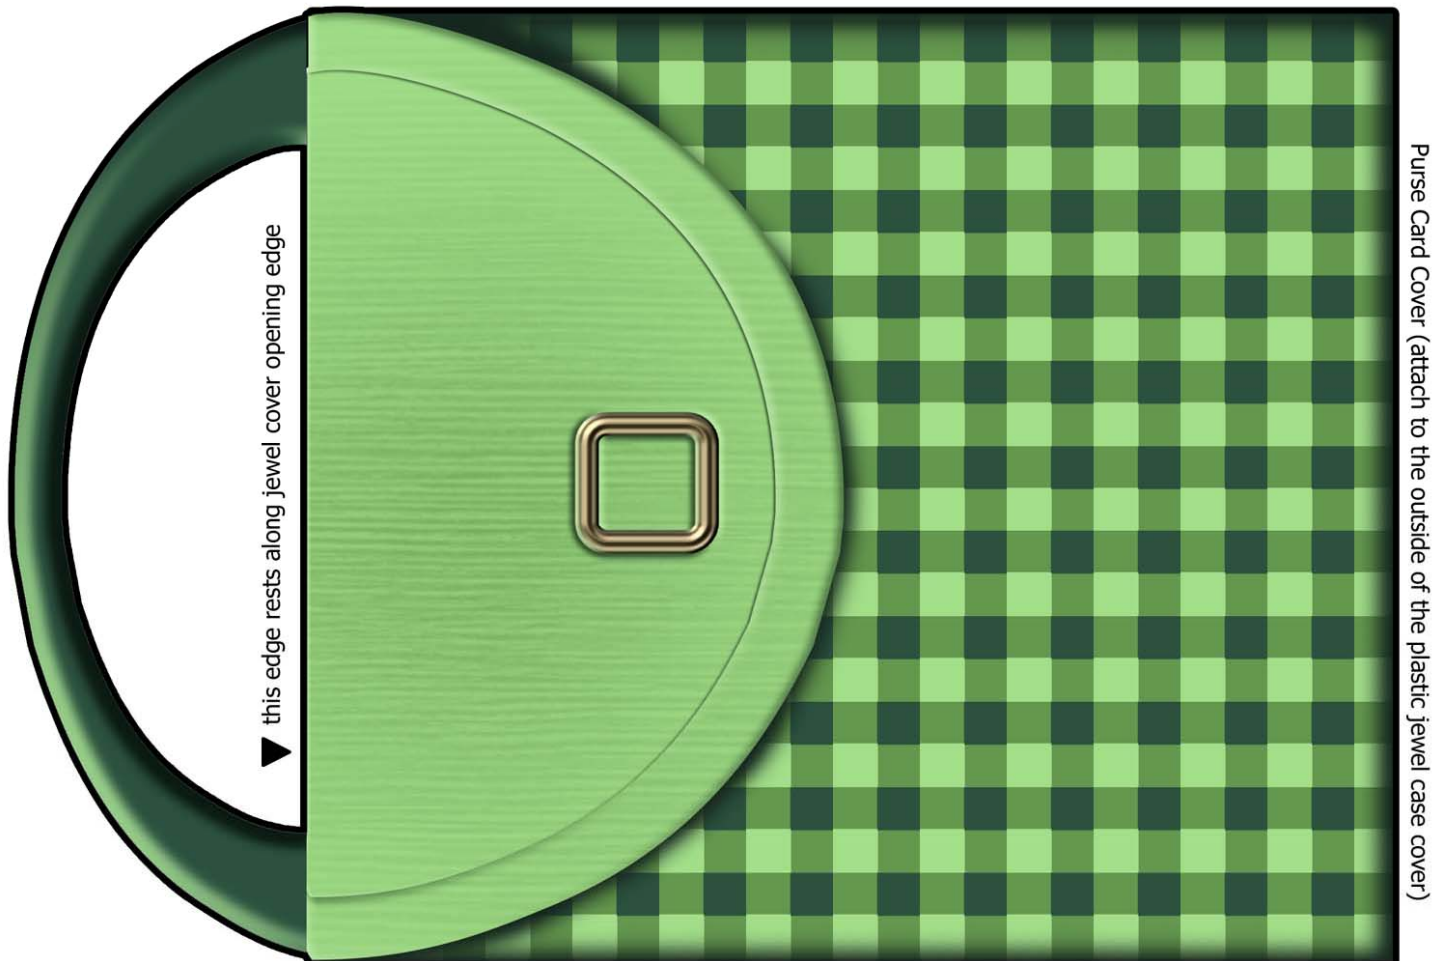

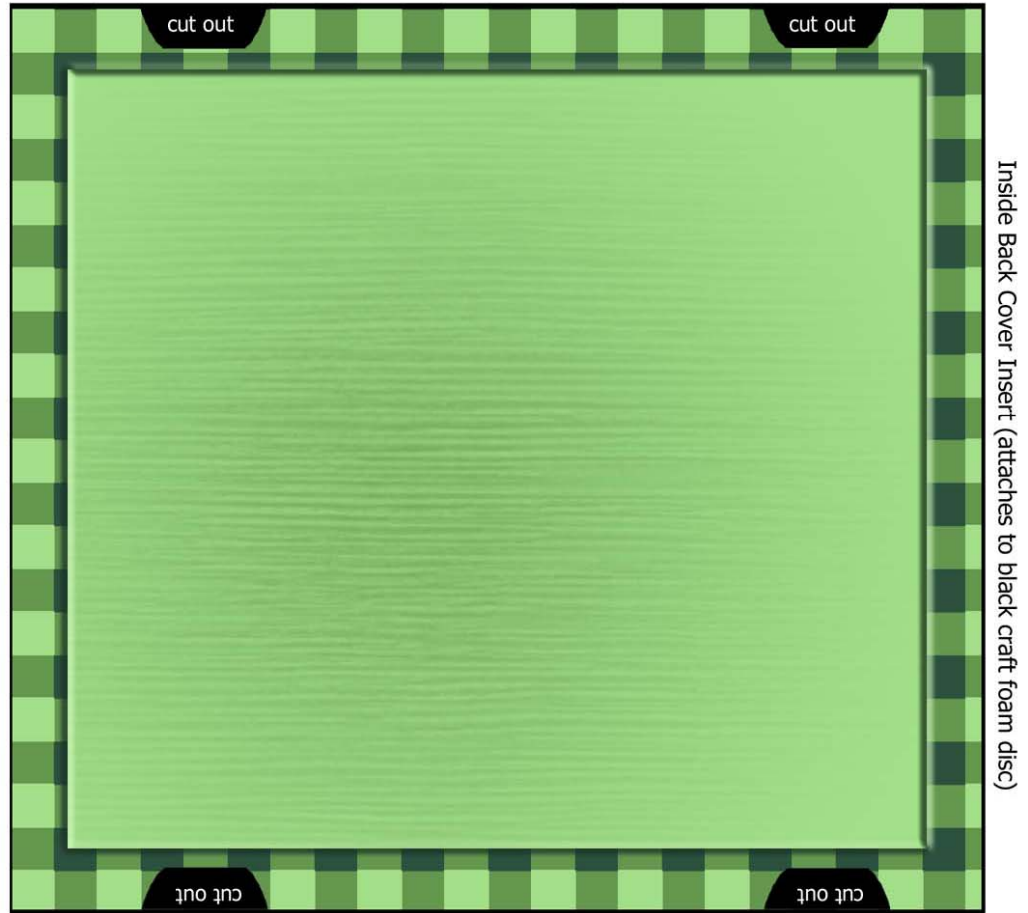

1. Print both pattern pages of this project document on white cardstock.
2. Cut along dotted lines to separate the pattern pieces.
3. Mount the purse pattern sections on black cardstock.
4. Cut out all pattern pieces along the black outlines.
5. Open the jewel case and insert the inside cover art into the front cover opening. If necessary, use double sided adhesive tape to hold it in place.
6. Apply adhesive to the back of the hinge section strip and secure it in place with double sided adhesive tape. The strip is placed just above the front cover insert section.
7. Place a cd disc onto the black craft foam and trace around the edges with a marker. Cut out the foam disc with scissors.
8. Apply adhesive to the back of the foam disc and insert it into the case where the disc would normally be held in place.
9. Glue the back cover insert to the center of the foam disc, making sure it is centered and that the cutout tabs line up with the case tabs.
10. Close the jewel case. Apply adhesive to the case cover and attach the purse art, lining up the top edge of the purse with the top edge of the jewel case. Case cover should open easily.
11. Repeat the procedure to attach the remaining purse art to the back of the case.
12. After the adhesive has set, open the case and attach photo, paper note messages, invitation details, etc.
13. If desired use glitter, embossing, trims, etc to embellish.

Jewel Case Photo Card

1. Print both pages on white cardstock
 2. Cut along dotted lines
 3. Mount purse sections on black cardstock
 4. Cut out all pieces along black border edges
 5. Open the jewel case and insert the inside cover art into the front cover opening. Use of double sided tape if needed to hold in place.
 6. Apply adhesive to the back of the hinge section strip and secure it in place onto the plastic hinge section just above the front cover insert
 7. Place a disc onto a 6" square of black craft foam, trace around the edges and then cut out
 8. Apply adhesive to the back of the foam and attach it into the disc holder section of the case.

(cont.)

10. Glue the back cover insert to the craft foam disc, lining up the cutout tabs with the tabs on the case.
11. Close the jewel case.
12. Apply glue to the front plastic cover.
13. Attach the purse art to the cover, making sure the top edge of the purse rests evenly along the top jewel case edge so it can be easily opened.
14. Repeat procedure for attaching back cover.
15. Allow adhesive to set.
16. Open the case and attach a photo, note, message, invitation, etc. to the blank sections of the inserts.
17. If desired, use glitter, dimensional paint, trims, embossing, etc to embellish!
